

Annexure-I

Format for maintaining records of applications for booking and allocation of capacity in petroleum and petroleum products pipeline by entity laying, building, operating, or expanding petroleum and petroleum products pipeline.

As per Petroleum and Natural Gas Regulatory Board (Guiding Principles for declaring or authorizing Petroleum and Petroleum Products Pipelines as Common Carrier or Contract Carrier) Regulations 2012.

(See regulation 7 (b))

Sl. No	Points description	PMHBL Reply
1	Docket number allotted to application for booking of capacity in petroleum and petroleum products pipeline	The pumping plan for pipeline for each month is finalized in Monthly Distribution plan meeting among HPCL, IOCL, BPCL, MRPL & PMHBL
2	Date and time of receipt of application	Monthly distribution plan is being held in 1 st week of every month
3	Mode of receipt of application and date of confirmation issued by the entity	In physical meeting product required to be pumped through pipeline is discussed in every month
4	Total capacity in petroleum and petroleum products pipeline at each of the tap-off/delivery point (in MMTPA)	Capacity of the pipeline – 5.60 MMTPA Actual offtake at each tap off point viz., Hassan and Devangunthi is based on OMCs requirements within the overall pipeline capacity of 5.60 MMTPA
5	Own capacity requirements of the entity laying, building, operating or expanding petroleum and petroleum products pipeline (in MMTPA) as declared by the entity before the commencement of the financial year and communicated to the Board.	PMHBL is common carrier pipeline and the entire capacity is available for the shippers. Present customers are HPCL, IOCL, BPCL & MRPL
6	Common carrier or contract carrier capacity available in petroleum and petroleum products pipeline (in MMTPA) at all tap-off/delivery point (s) before the date	PMHBL is common carrier pipeline and the entire capacity is available for the shippers

PETRONET MHB LIMITED

	of receipt of the application for booking of capacity.	
7	Pipeline capacity allocated to the applicant entity (in MMT) over the time period at each of the tap-off/delivery point in the petroleum and petroleum products pipeline along with the details of the point of injection of petroleum and petroleum products. In case the capacity allotted is lower than the capacity requested, specific reasons for the same to be recorded.	Actual offtake at each tap off point viz., Hassan and Devangunthi is based on OMCs requirements within the overall pipeline capacity of 5.60 MMTPA. The offtake plan is finalized through Monthly Distribution plan meeting during the 1 st week of every month for the corresponding month between OMCs, MRPL & PMHBL
8	Date of sending the notice of acceptance of applicant entity's request for booking of capacity (in case of part allocation of capacity, with a disclosure of the specific reasons) and the date of acknowledgement of receipt of the notice.	As per the monthly distribution plan agreed among OMCs, MRPL & PMHBL for every month
9	Date of entering into a contract for booking of capacity in the petroleum and petroleum products pipeline.	NA
10	Capacity available in petroleum and petroleum products pipeline after each capacity contracted	Total Capacity: 5.60 MMTPA Highest throughput achieved so far: 3.894 MMTPA (FY 2023-24)
11	Actual quantity delivered against the capacity contracted	Highest throughput achieved so far: 3.894 MMTPA (FY 2023-24)
